

Amendments to Specification: For Application No. 10/700/766.

1. Appropriate correction of page 19, line 21, the language "armature golfer" is changed to "amateur golfer".

To use the tee on a golf driving range add the screw on tee head or (screw on golf ball rest/conventional tee combination apparatus) and anchor according to the soil conditions. The tee will stay anchored in the ground for continuous practice with a perfect grass lie. To use the invention in an actual game situation with the mutual agreement of other players as discussed in the section " The Brief Description of Invention". Referring to Note: The ~~armature golfer~~ amateur golfer can correct his hook or slice using the insertion tip parameter in conjunction with a regulation golf ball in which a hole is incorporated.
